Running head: Wind effects across age and ability

Statements

Disclosure of interest. The author reports there are no competing interests to declare. The author maintains an open, non-commercial statistics platform built on the federation's public results database.

Funding. The author received no funding for this work.

Author contributions. AGG conceived the study, performed all analyses, and wrote the manuscript.

Declaration of AI use. The author used a large language model (Claude, Anthropic) for programming assistance and manuscript drafting support. The author reviewed, verified, and edited all content and takes full responsibility for the integrity of the work.

Acknowledgements. The author thanks the Norwegian Athletics Federation, whose systematic registration of results — wind readings included, down to the youngest classes — makes measurement research of this kind possible, and Tilastopaja Oy (Turku, Finland), which compiled the competition records of the championship finalists and permitted their use in this study.
